Everything is energy

- Einstein discovered that everything is energy: E=MC2
- Matter is energy vibrating at a slower rate

Matter is not as solid as we may think

- Atoms are 99.9% empty space.
- The ratio of the space between electrons and the nucleus in atoms that comprise matter is akin to the ratio of stars to space in the Universe. As above so below.

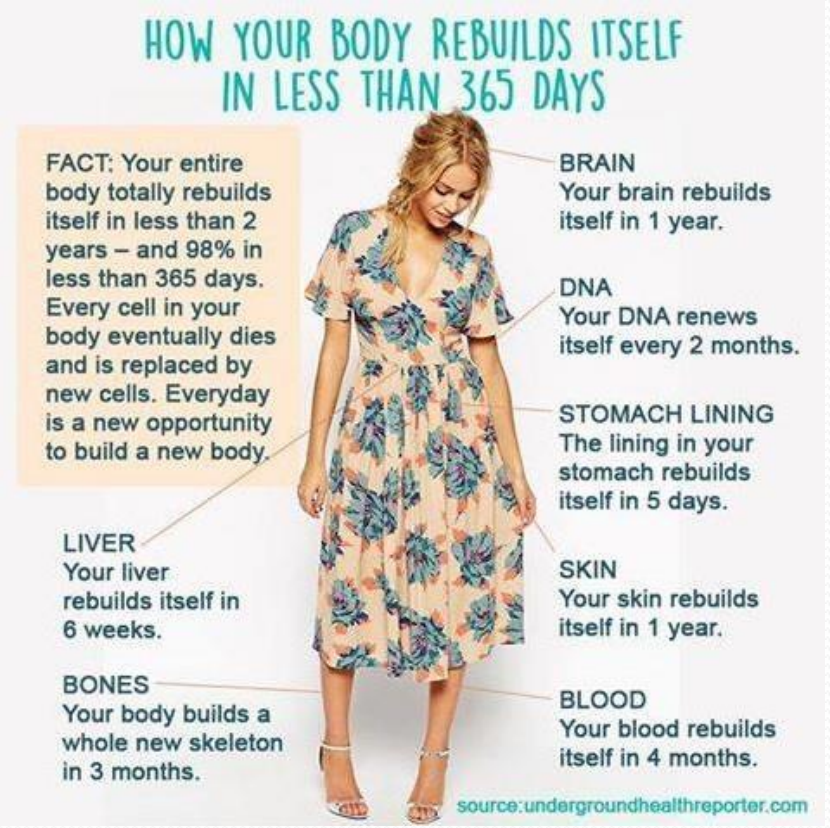

Nor is the human body intractable

- The human body is much more malleable than we are led to believe.
- What we think, the quality of our thoughts manifest in our bodies for better or for worse.
- The human body is highly responsive to energy.

Your body renews itself

- Since our bodies totally renew themselves in less than 2 years why are we not walking around in perpetually new bodies?
- I would suggest that it is our habitual toxic thinking and disharmonious emotions that are partially responsible for physical deterioration.

To heal the body we must heal the mind

- Thoughts that are out of accord with who we are (negative thinking) have a detrimental effect on the body.
- When we are ill at ease the physical body reflects that dis-ease. Think beautiful thoughts.

Our nature is love

- We are radiant beings of love and light.
- That's why when we have thoughts and feelings that are ‘dark’ and contrary to love, we feel bad.
- All negative emotions are produced by fear at some level. They are all fear based.
- Fear is the absence of love.
- Love is still present, but its expression is being blocked.

Divine Love is the greatest power in the Universe

- Divine love heals all. Since it is the highest vibration, it transmutes all.
- Divine love heals the physical body by bringing our thoughts and feelings back into accord with our true nature which is love.
- When unobstructed it will transmute anything that is not in alignment with itself.

Divine Love – the master healer

- The task of the healer is to be a clear channel for Divine Love. To be surrendered and centered in the heart.
- The vibration of the recipient is raised by Divine love which transmutes all manner of negative thinking and the accompanying negative emotions.
- In this high vibration of peace, harmony and love the body is assisted to restore balance and heal itself.

Quantum Body Balance

- Quantum Body Balance **in-person** involves transmission of Divine Love, angelically assisted, to the client while the client lies on a therapy table.
- Hands are placed on or above the chakra points along the spine, and on the feet, head and shoulders.
- All the internal organs are stimulated.
- It is especially effective for pain reduction or complete elimination of pain.
- The body becomes relaxed, balanced and revitalized which greatly increases the ability of the body to heal itself.

Quantum Body Balance

- Quantum Body Balance **at-a-distance** involves transmission of Divine Love, angelically assisted, to the client while they lie at home on their bed.
- All the internal organs are energetically 'massaged' and stimulated.
- The body becomes relaxed, balanced and re-vivified, which greatly increases the body's ability to heal itself.
- The energy centers (chakras) are balanced from the root chakra all the way up to the crown and the body's energetic field is attuned by the potent energy of Divine Love.
- The Quantum Body Balance© Sessions also have an evolutionary component that helps to align the body, mind and emotions with the heart, creating a clear and harmonious vehicle, to facilitate purposeful living.
